

### Caution

- Because the product is fragile, do not exert too much strength or drop it during the assembly and use. Also be sure to fix it on the ceiling securely.
- The product is not water proof, so do not use it outdoors.

### I. Diagram

### II. Component list

No.	Name	Number
1	Lamp pendant	1
2	Lamp	1
3	Hold-nut	1
4	Hanging Chain	1 (59in)
5	Expansion tube + hook	1
6	Power wire	1 (11.5ft)
7	Adapter (12V AC 500mA)	1
Note	1, 2, 3 and 4 are power cable joints	

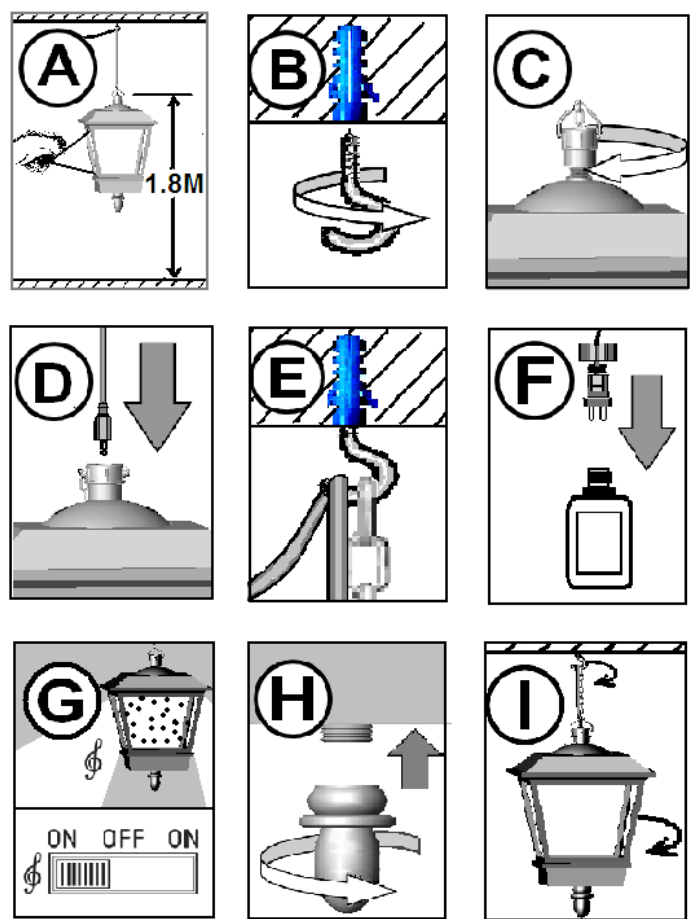

### III. Installation steps

Please install according to the figures and steps below:

#### A. Installation positioning

- It is suggested to hang the lamp 70 in. above the floor to get the best view angle;

- **B. Fix the hook:** Drill a hole on the ceiling above the lamp to install expansion tube + hook (part #5);

- **C. Install hold-nut:** Spin and fasten the hold-nut (part #3) on the top of the lamp (part #2). **Note:** The hanging chain (part #4) is already tied together with the hold-nut; please make sure to fasten the hold-nut in case it gets loose and falls down.

- **D. Connect power wire to the lamp:** Insert the plug (2) of the power wire (6) to the jack (1) on the top of the lamp (2);

- **E. Hang lamp and arrange power wire:** Hang the hanging chain (4) and power wire (6) that have already been fixed on the lamp (2) to the hook (5). You can adjust the length of the chain according to the distance between the lamp and the ceiling.

- **F. Power on:** Connect the joint (3) of the power wire (6) with the joint (4) of the adapter (7) and then connect the adapter with the main power source.

- **G. Examination:** When setting the switch on the bottom of the lamp (2) (see the small figure under) to the left side to start it, the lights in the lamp shall be lighted, snowflake shall fall down and music shall start at the same time. If it fails to perform such functions, it is necessary to check if the joints 1, 2, 3 and 4 are well connected. You can also turn the switch to the right side to turn off the music.

- **H. Install lamp pendant :** Spin the lamp pendant (1) to fasten it with the lamp (2);

- **I. Adjust direction:** You can adjust the direction of the lamp by spinning the direction of the hook (5) to your satisfaction.
