***Shown in the Mahogany finish*

***Shown in the Teak finish*

The Shelby electric fireplace offers the perfect blend of style and functionality to any room it's placed in. The slim, transitional mantel is made out of MDF material, and is available in seven striking finishes. The clean lines, fluted pilasters, and crown molding are a few designer details that add character to this handsome frame.

The electric insert produces 5,115 BTUs of fan-forced heat that can quickly heat a 210 sq. ft. room. An enchanting flame display dances across the back of the firebox, creating movement that is sure to catch your eye. Embers of light glaze across the logs within, adding highlights throughout the charred log display. The heat settings can be adjusted at the push of a button, and the flame display functions with or without heat - perfect for use throughout the year.

Fireplace enthusiasts will enjoy the convenience of an electric unit. It's flexible placement allows you to move it from room to room as needed. It will never produce ash or soot, and the logs will never need to be replenished. No need to for professional installation, simply plug it in and enjoy!
