

Dual-Bed Elevated Compact Greenhouse

Relish gardening in a controlled space with Hanover's elevated compact greenhouse! Our mini wonder gives you the space you need to grow your seeds, seedlings, herbs, tomatoes, flowers, and vegetables in a sustainable environment. The perfect fit for a first-time grower or seasoned gardener, use it in your backyard or on a patio, deck, large balcony, and urban rooftop.

No more kneeling, bending, or back strain as this ergonomically designed raised garden bed allows you to stand while working. An adjustable roof opening allows ventilation and sunlight into your garden, plus a drainage system helps prevent root rot. Hidden storage space underneath the planting bed holds your tools, gloves, and fertilizer.

Sturdy, strong, and durable, this fantastic hothouse is constructed with rust-resistant aluminum frames, galvanized steel sheeting, and UV protected double-walled polycarbonate panels. With Hanover, you'll enjoy long-lasting controlled spaces to experiment, grow, and nurture your plants with ease.
